

## Technical Specifications

### Applications:

- Protects receptacles, switches, and plugs for single gang and two gang configurations in dry and wet locations.
- Provides a lockable cover that complies with OSHA lockout/tagout requirements.
- Prevents accidental equipment disconnects, reduces tampering, and deters theft and equipment removal.

### Features/Benefits:

- Alloy A360 copper-free (less than .004 copper content) aluminum provides increased corrosion resistance.
- Die cast, metal construction provides long lasting durability.
- NEMA 3R rating ensures protection against falling rain, sleet, and external ice formation when used with appropriate device boxes.
- Clear UL and CSA markings speed approval by inspectors.
- Wide range of cover depths and receptacle configurations accommodate almost every common plug and cord size.
- Combination box or device mounting design provides flexibility in installation.

### Standard Materials:

- Covers and Plates: Die cast aluminum alloy A360.
- Gaskets: Closed-cell foam.

### Standard Finish:

- Powder coated finish

### Compliances:

Compliances as noted on each page of the catalogue include:

- CSA Certified
