# Red Dot® complete weatherproof electrical outlet solution

## **A weatherproof kit for areas exposed to the weather or to splashing**

ABB now offers an easy way to be safe and sure when installing an electrical outlet exposed to the weather or anyplace where water may come in contact with the electrical outlet. The all-in-one weatherproof kit brings together a matching electrical box and a weatherproof extra-duty cover, as well as one or two GFCI devices, in a single convenient CEC-compliant solution. Managing and installing outlets for wet applications has never been this simple.

## **A range of kits for every application**

All items are CSA certified and the kits are available in a choice of metallic or non-metallic boxes in different colours and varying depths. There is even a double-gang option.

## **Be ready with the Red Dot weatherproof kit**

- Always meet CEC rule 26-708 requirements for weather or spray exposed applications
- All-in-one solution simplifies purchasing and inventory
- Individual items are CSA certified
- Matching box and while-in-use cover
- Available with metallic or non-metallic box
- Different depths and colours adapt to different uses and settings
