PRODUCTS FOR

PANEL BUILDERS

You simply won't find better panel components.

Thomas & Betts has everything you need to make your panel better than your competition's. Every component in these pictures (except the actual wiring), and thousands of other components represent the Thomas & Betts family of products — products used in panels all over the world. To give you the ultimate in quality, service and one-source accountability, only Thomas & Betts can offer you the most complete line of products for panel builders in the industry, featuring name brands you know and trust.

Thomas & Betts

Wiring Duct

Ty-Duct™ Wiring Duct

- Triple-restricted slots speed installation and improve wire retention
- Grooved, co-extruded, flush-mount cover with two-point contact design is easily installed and removed with less force, yet won't accidentally slip off
- Writable protective film protects against dust and job site scratches
- Patented universal mounting clip in base holds divider and provides slots for traditional nylon cable ties or hook-and-loop fasteners
- Available in solid, wide slot, narrow slot and round hole design, halogen-free, 3/4" to 6" widths, 1" to 5" depths and gray, black, white and intrinsic blue colors
- UL recognized, CSA certified, NFPA 790-2002 Section 14.3.1 conformant, CE and RoHS compliant

Fastening Products

Ty-Rap® Fastening Products

- The original Ty-Rap® Cable Tie
- Infinitely adjustable design ensures the right fit
- Stainless steel barb
- Rounded, low-profile head and smooth molded body
- Complete accessories for every application
- Wide variety of materials for most environmental conditions
- UL and Military (MS3367) listed

Identification Solutions

E-Z-Code® Identification Solutions

- Thermal printers with a wide variety of wire labeling material
- Complete labeling package, from self-laminating to heat-shrink markers
- Complete package of wire marker books and cards
- Signage for most requirements

Fittings

T&B Liquidtight Fittings

- A complete line of Liquidtight Fittings for every application
- Designed to stand up to demanding, wet or corrosive environments
- Safe Edge™ ground cone design accepts variations in raceway convolutions
- Patented double bevel sealing ring
- Suitable for both grounding and bonding applications
- UL listed and CSA certified

T&B Liquidtight Cord Fittings

- Provides exceptional mechanical strain relief
- Dependable seal against dust, oil and other liquids
- Designed to handle unique connection demands of flexible cords and power cables
- UL listed and CSA certified

T&B Rigid Fittings

- Rugged construction with zinc plating inside and out
- Threaded conduits also feature locknuts for secure connection to threadless openings
- UL listed and CSA certified

PRODUCTS FOR

PANEL BUILDERS

Power & Grounding Connectors

Color-Keyed® Power Connectors

- Superior compression connections
- Broad range of tooling and dies, including hydraulic, pneumatic and manual tools
- Hydraulic tools produce the hex-shaped circumferential crimp preferred by many users
- Custom modifications available
- Complete package of termination, splices and both C and H taps
- T&B color-code method ensures a superior crimp with die-code embossing feature
- UL listed and CSA certified

Blackburn® Mechanical Lugs

- Copper or aluminum dual-rated connectors
- Easy installation requiring no special tools
- Tin plated for low contact resistance
- UL listed and CSA certified

Control Termination

Sta-Kon® Terminals

- Available in vinyl, nylon, uninsulated, heat shrinkable and tefzel materials
- Longer barrel offers a superior connection
- All terminals meet military standards
- Selectively annealed barrels
- Designs for most applications, including rings, forks, locking forks and disconnects
- UL listed and CSA certified

Heat-Shrink Products

Shrink-Kon™ Heat-Shrink Products

- Proven performance for moisture-proof connections and terminations
- Heat-shrinkable tubing, boots and end caps can be used over lead, steel, aluminum, copper, standard plastic and elastomeric materials
- Available in both thin and thick walls in a wide variety of colors
- Most sizes are UL listed, CSA certified and meet military standards

Pin & Sleeve Connectors

Pos-E-Kon™ Rectangular Connectors

- Meets both UL and international standards
- 10 to 80 amps
- Rugged industrial-grade connectors provide universal raceway flexibility
- Neoprene gasket seals out dust, oil and moisture
- Easy-lock, cam-action latch eliminates guesswork and speeds installation

Russellstoll® Interconnection Systems

Complete line of electrical interconnection systems designed for specialized or harsh industrial environments in applications including, but not limited to:

- Heavy industrial/marine (outdoor, severe or high abuse environments)
- Washdown and light marine (watertight/waterproof)
- Industrial and commercial
- Control circuit and industrial/interlock

PANEL BUILDERS

And that's not all...

Thomas & Betts also offers thousands of other products you might need, such as outlet boxes and covers, strut and much more. Visit www.tnb-canada.com or ask your T&B sales associate or distributor for a complete catalogue.

Thomas & Betts service and support...before, during and after your purchase.

You can count on us for assistance in selecting the right products, and depend on our continued service and support long after our products are installed and performing in your panels.

Sales Support

Your Thomas & Betts sales teams stand ready to offer a range of services to help you and your organization meet business, code and installation challenges. On the job site or on the plant floor, T&B sales representatives offer a range of professional services including:

- Product Applications and Installations
- Technical Specifications
- Competitive Reviews
- Industry Trends and Code Changes

Tool Services

Trust T&B's dedicated Tool Services Department to answer all questions regarding tool applications, repair, warranties, sales/lease and technical information. Our experienced, knowledgeable staff features combined experience totaling more than 100 years! Ask about specialized services, including customer/sales training, demos and calibration/certification of tools.

Technical Services

Meeting and exceeding customers' expectations is a fundamental goal of Thomas & Betts. Call the Technical Services Department and talk LIVE to an experienced technical representative who'll answer questions and concerns regarding all aspects of our products and services. We also offers a variety of on-line, self-service resources to make selecting and using our products as easy as possible.

Product Application and Tooling

Labor Savings

Seismic Bracing

On-Site Support and Application Training

Thomas & Betts training is available for electrical professionals engaged in specification, installation and maintenance of electrical and mechanical systems. The programs may be presented on-site at your facility by your local T&B Sales representatives, and provide pertinent information to help your operations and provide you with a competitive advantage.

These titles are among the many subjects available from your T&B Sales representatives.
