Copper splices
Tin-plated straight splices

Made from electrolytic seamless copper tubing, these splices can handle your heavy-duty applications
- Equalizes cable insertion
- Resists corrosion
- Easy identification

Diagram
Copper splices
Tin-plated tapered splices

High-voltage, oil, harsh environments — these splices can handle it all
- Provides high conductivity, minimizes voltage drop
- Enable use in high-voltage installations up to 69 kV
- Resists corrosion and extends shelf life
- Equalizes cable insertions
- Resists oil
