

PRO-BLU 933

Designed and manufactured in Canada, the new PRO-BLU 933 wire connector was developed with the installer's needs in mind.

With an ergonomic design and a wide range of approved wire combinations, this wire connector is a perfect fit for the majority of residential and commercial applications.

External cap:

- Ergonomic wing design makes installation easy and painless, even when installing multiple wire connectors.
- Posi-Grip™ surface provides superior twisting power, even when hands are greasy or damp.
- Finger-friendly plastic for an even more comfortable grip.
- Rounded edge for safe and comfortable installation.
- Made of durable polypropylene resistant to temperatures up to 125°C (257°F).

Exclusive Live Action® variable volume spring expands to accommodate even more wires with less twisting effort compared to other wide range wire connectors.

Inner spring:

- Live Action variable volume spring expands to accommodate even more wires with less twisting effort.
- Wide range of wire combinations: #22 to #8 AWG, solid or stranded, no pre-twisting required.
- The square wire spring construction and funnel design gives a positive pressure conductor grip for solid or stranded wires.
- Approved for circuits up to 600 V and lighting fixtures and signs up to 1000 V.
- For copper conductor only.
